

GENESIS VERTICAL LIFT

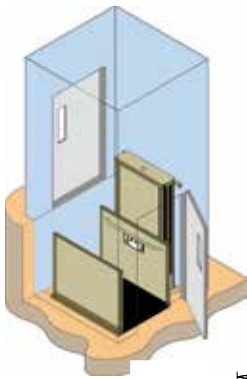

ENCLOSURE AND SHAFTWAY MODELS

The Garaventa Genesis is a vertical platform lift which provides access into or within commercial or residential buildings. It travels inside a complete, self-contained enclosure, as shown, or can be located in a shaftway constructed by others. Our unique, anodized aluminum design is strong, durable and attractive.

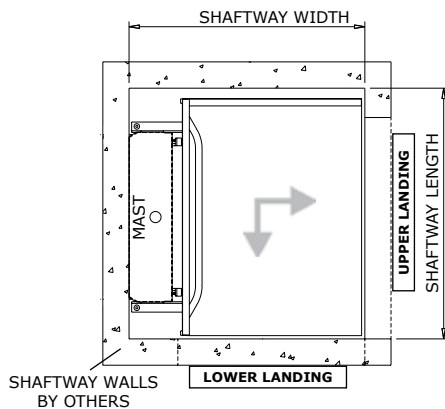

SHAFTWAY MODEL

The Genesis Shaftway model fits inside a vertical runway that is built by others in accordance to Garaventa Lift specifications. The system consists of a drive mast, passenger platform and doors or gates. The shaftway can be completely enclosed, much like an elevator shaftway, or it can be open at the upper landing. A variety of doors and gates are available.

- Platform dimensions are clear inside dimensions.
- Ramp required for floor mount
- Mast-to-wall attachment required
- [Shaftway Only] If the tie back rail (spreader bar) is to be used to attach the mast to the shaftway wall, the shaftway width dimension will increase by 38 mm [1 1/2"]

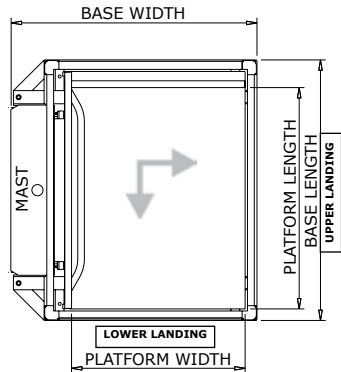

ENCLOSURE MODEL

The Genesis Enclosure model is a complete, self-contained vertical access solution. It is similar to the Shaftway Model except it includes a pre-fabricated enclosure and integrated doors or gates. The enclosure can be built full height and fitted with a Plexiglas dome for weather protection, or can be left open at the top.
